

KY-200

## Features

**eLock Power Supply KY-250** offers consistent & reliable regulated full 3 Amps 24Vdc output. Built-in with Battery charger circuit that enables user to have battery back-up features with battery.

- Overload Protection
- Built-in backup battery charger
- Battery low cut-off
- Output voltage adjustment.
- Extended large casing to accommodate 2 nos of 7AH Batteries
- Dimension:- 245mm W x 315mm H x 80mm D
- Safety Approval:- **CE**

## Specification

- Input Voltage: 220~240 Vac
- Input frequency: 50~60 Hz
- Output no load voltage: 25.5 Vdc
- Output rated voltage: 25.0 Vdc
- Output rated current: 5.0 Adc
- Maximum Power Consumption: 144 Watts
- Load regulation: NL to FL 3%
- Battery low cut-off: 21.0 Vdc
- Operating temperature: 0~65 deg C
- Casing Surface finishing: Oven baked Epoxy Powder coating.
